I can truly say the experience and opportunity I have got working as a counsellor in Sakhi One Stop Centre, Deogarh to make a difference in the lives of underprivileged women is a thought provoking experience for me. From the beginning during counseling with survivors, I faced various painful situations. But this time I have patience to deal with survivors and help to overcome this situation. I have learned more from case and Sakhi. I try to give my best with the cooperation of my seniors.

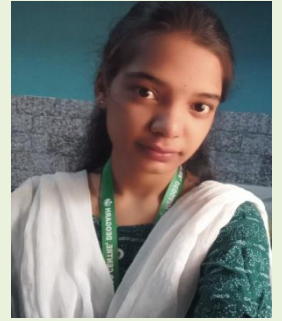

Last but not the least, As my experience, Sakhi was to say to every woman and Children `` No matter how deep the issue is and no matter how long you have struggled with it, the possibility exists for you to become absolutely free, whole and Healed".

Thank You Sakhi!!

## GLIMPSES

## **CONCLUSION**

Women, the fair sex is the strongest pillar of a family, a household and above all a society. A society gets its recognition in accordance with the status of women in its arena. Our Vedas also say that. It is a matter of pity that even we recognize their status in pen and paper, they are the most part, subject to violence, atrocities, deceit and many other abuses. SAKHI is the most novel attempt till date by the government to erect a shield: a shield of protection and assurance. We are proud to have been assigned the project for Deogarh. We cannot say that we have been able to protect, reassure all but we are still proud to be a part of the process. ***Hail women.***
